

COMALAT MATERIALS – REPOSITORY

AS AN OPEN EDUCATIONAL RESOURCE, ALL COMALAT MATERIALS ARE AVAILABLE ON THE COMALAT PAGE IN AN OPEN REPOSITORY, UNDER A **BY** LICENSE (anyone can download, copy, distribute, re-use, edit these materials, as long as they credit COMALAT for the original design and creation of the materials).

The following pages contain a summary/guide of the contents of the language material repository. Those materials were created for the COMALAT platform, and thus designed to be part of a self-access course on a LMS platform. The materials were not intended to be part of a regular book-form or to be accessed in a document form. However, as part of an Erasmus + project whose main trait is an Open access/open source perspective, this repository is offered to allow any potential users of the COMALAT platform to access the materials without the need to register and follow the system's learning path and progress and assessment processes.

This is the structure and organization of the materials in the repository:

ENGLISH and SPANISH

Language materials are available in two separate folders for the Beginner course and the Intermediate course.

Beginner

10 units + final tests per course (Final test for Units 1-5 and 6-10).

Each unit is fully contained in a folder, with:

- audio files, when included in the unit
- the language learning materials of the regular learning path
- extra materials provided by the system when student does not reach 60% success in the regular learning path in a specific subsection (labeled “Extra” or “Banco” -for “Extra material bank”).
- videos, ppt presentations or any other resource included in the unit in the COMALAT platform
- final test of the unit

Intermediate

10 units + final tests + Language for Specific Purposes Materials + Tests of Language for Specific Purposes

Each unit is fully contained in a folder, with:

- audio files, when included in the unit
- the language learning materials of the regular learning path
- extra materials provided by the system when student does not reach a 60% in the regular learning path in a specific

subsection (labeled “Extra” or “Banco” -for “Extra material bank”).

- Images included in the activities for both the regular learning path and the extra materials
- videos, ppt. presentations or any other resource included in the unit in the COMALAT platform
- final test of the unit

Language for Specific Purposes (LSP) folder includes:

- Business.
- Health.
- Science and Technology.
- Tourism and Hospitality.

All folders in each of those areas of LSP include:

- Materials for LSP sections in all 10 units of the Intermediate course
- Extra materials for LSP in all 10 units of the Intermediate course (provided by the system when students do not reach 60% of the total score in this section), labeled “Extra” or “Banco” -for “Extra material bank”.
- Audio and video files, when employed
- Images included in the activities for both the regular learning path and the extra materials for LSP

GERMAN

Beginner

10 units + videos included in the course.

Each unit is fully contained in a folder, with:

- audio files, when included in the unit
- the language learning materials of the regular learning path
- extra materials provided by the system when student does not reach 60% success in the regular learning path in a specific subsection (labeled “Extra” or “Banco” -for “Extra material bank”).
- videos, ppt presentations or any other resource included in the unit in the COMALAT platform
- final test of the unit

Intermediate

10 units

Each unit is fully contained in a folder, with:

- audio files, when included in the unit
- the language learning materials of the regular learning path
- extra materials provided by the system when student does not reach a 60% in the regular learning path in a specific subsection (labeled “Extra” or “Banco” -for “Extra material bank”).
- Materials for LSP sections (Business, Health, Science and Technology, Tourism and Hospitality)

- Images included in the activities for both the regular learning path and the extra materials
- final test of the unit
